- 4.21. Any transactions made with us do not occur on an exchange. Rather the transaction occurs off-exchange or over the counter ("OTC"). As a result, we enter directly into a contract with The Client in respect of The Client's transaction.
- 4.22. In case of multiple identical transactions, from different clients of ours, then we may treat this as one Transaction. - 5.1.1. Contracts for difference, options, futures, swaps, forward rate agreements and many other derivatives (including most spot instruments) are leveraged products and involve a high level of risk. - 5.4. Upon the opening of any Market quoted by us trading will be available with prices we are reasonably able to obtain in reference to the underlying market and order size
- 5.5. Due to the nature of online trading systems and the potential unreliability of market price feeds, we may remove or delete Orders which in our opinion do not reflect the Underlying Market prices at the time of the placement of the relevant Order. We will not be responsible for losses or potential losses sustained by The Client on a rejected or cancelled Order. We are not responsible or liable for losses made with other companies on Transactions undertaken in connection with a rejected or cancelled Order.

If this results in subsequent Orders having insufficient Trading Resources for activation, then these Orders will be cancelled. We will not look at Order filling sequences that may result in one Order being filled and another failing, we will fill Orders as and when they are executed by the trading system.
- 5.11. When dealing over the phone, The Client understand and agree that order will be filled after full verification of The Client's identity as decided by our policies which might change with our sole discretion, The Client hereby acknowledge that after identification , The Client will be given an indicative price to be filled, we will not be liable for price of execution and the time passed between The Client's acceptance of price and the actual price The Client's order is filled.

- 7.1. The Stop Out facility protects The Client from incurring an uncontrolled deficit on The Client's account and as it can result in the closure of open Transactions (in whole or in part) we strongly recommend a strict monitoring of The Client's equity, margin levels and our stop out percentage policy. If The Client are not aware of it, please contact us for verification.

- 7.2. prevention of closure of The Client's trades will be done by topping up The Client's account
- 7.3. We do not make Margin Calls and will not be liable for failing to contact The Client or failing to attempt to contact The Client.
- 7.4. Equity Based Stop Out will close Transactions (in whole or in part) when markets available for trading only, and in the event of closed markets, open Transactions may be closed (in whole or in part) at the first rate of the opening of trading session of the relevant instruments.

8. TRANSACTIONS CLOSING

- 8.1. We may accept closure of open Transactions outside our Quoting Hours dependent upon the market (i.e. where the relevant market is suspended or not available for whatever reason) but we are not obliged to do so. The Client should close the Transactions during the Quoting Hours.

In certain circumstances and in accordance with the Agreement, we will be entitled or may be required to close any of The Client's open Transactions prior to the Expiry Date notwithstanding that The Client's account is not in deficit. Normally, all Transactions still open on their Expiry Date will be automatically settled at the relevant price as outlined in the Market Information, unless market conditions dictate otherwise. If the Expiry Date of a Transaction is not a recognised business day of the relevant Underlying Market, then the business day immediately preceding that stated will be considered as the Expiry Date unless an alternative is specifically stated in the Market Information, or we notify The Client otherwise.
- 8.4. Open Transactions will automatically close on their Expiry Date (as are detailed in the Market Information) and any subsequent closing of any such Transaction by The Client (whether or not accepted in error by us) will be void.
- 8.5. On the Expiry Date of a Transaction with a specific expiry date, the settlement price will be based on the closing Bid or Offer price of the Underlying Market plus or minus our spread on that Transaction, depending on The Client's Transaction.
- 8.6. If the Expiry Date is during a period of low liquidity in the Underlying Market, we may settle the Transaction at the price achieved by removing our hedge on the relevant Transaction during the course of the final business day of the relevant Expiry Date plus or minus our relevant spread or at the closing Bid/Offer price in the relevant Underlying Market plus or minus our relevant spread.
- 8.7. It may be that under certain Underlying Market conditions we are not able to close a single Transaction with sizeable market consideration in full at one price, then we may close such Transaction at a price reflecting the price at which we are able to transact any relevant underlying hedge.

9. OVERNIGHT FEE AND ROLLING FEE ("SWAPS FEE")

- 9.1. An Overnight Fee or SWAPS Fee will be charged on The Client's account if The Client hold a Transaction open from one trading session to the next. Each Market has its own conditions and spread which may vary at our discretion.
- 9.2. An Overnight Fee is charged on a daily basis except Saturday(s) and Sunday(s) ("Weekend(s)"). - 9.3. If Overnight Fee charge cause the Trading Resources on The Client's account to go into deficit, then we may move Stop Levels on any open Transaction to restore the Trading Resources to a positive position on The Client's account.
- 9.4. If The Client are unable to cover any Transaction due to Overnight Financing (and the constraints of the margin requirements) we may any or all Transactions (in whole or in part) in order to restore the Trading Resources to a positive position. We will not be responsible for the subsequent Market activity on Transactions closed or left open.
- 9.5. A Rolling Daily or undated CFD Transaction normally has no Expiry Date or an Expiry Date that is many years in the future but may be closed by us in the case of a Force Majeure Event or, where the Overnight Fee or anything else has resulted in deficit Trading Resources on the account. When Transactions are closed by us the price will be at the full spread quoted by us at that time or at a price that in our opinion fairly reflects the price at that time.
- 9.6. Where Overnight Fee is applied to open Transactions, the debit/credit to the account is made on each occasion that they are kept open from one trading session to the next, including non-business days.
- 9.7. For daily, monthly and quarterly Markets the Client may at any time before the last dealing time of an open Transaction ask for a Quote to roll the Transaction over into the next contract period.
